

**FAIR FINANCE ASIA**

**ACCELERATING  
ASIA'S SUSTAINABLE  
FINANCE JOURNEY**

# ABOUT FFA

**Fair Finance Asia (FFA) is a network of over 90 civil society organizations (CSOs) in Asia working together to ensure that financial institutions operating in the region uphold social and environmental rights and the well-being of local communities.**

- FFA operates at the regional level and across ten countries in Asia in Bangladesh, Cambodia, India, Indonesia, Japan, Lao PDR, Pakistan, Philippines, Thailand, and Vietnam.
- FFA is part of Fair Finance International (FFI), a global network of civil society coalitions advocating for sustainable finance across Europe, Latin America, and Africa, and Asia.
- FFA is a program funded by the Swedish Embassy in Bangkok, Thailand. Between 2018 and 2022, FFA implemented its Phase 1, and in 2023 began implementing its Phase 2 running until June 2026.
- In January 2026, FFA launched the Investing and Financing Outcomes in Regional Ecosystems and Sustainable Trade (I-FOREST) project. Supported by the UK Foreign, Commonwealth & Development Office (FCDO) through its Forest Governance, Markets and Climate Programme Phase 2 (FGMC2), I-FOREST addresses the overseas deforestation footprint of Asian economies as major importers, processors, and financiers of commodities sourced from tropical forest countries, including Association of Southeast Asian Nations (ASEAN) member states. The project will run until March 2031.

# THE CHANGE WE'RE WORKING TOWARDS

1

Financial institutions (FIs) operating across the region increasingly adopt or improve sustainable finance policies, practices and public disclosure.

2

Regulators and governments increase independent monitoring of FI policy, practice and accountability and transparency, and improve the regulation of FIs, including through mandatory regulation.

3

Regional financial sector actors take increasing actions to require and enforce improved standards for FIs' policies, practices, accountability and transparency

4

Strong and resilient civil society across the region effectively influences the sustainable finance agenda across the region, integrating a gender lens and community voice.

5

Other actors (intermediary stakeholders) have increased awareness and take increased action to influence the sustainable finance agenda.

# OUR THEMATIC AREAS

Climate Change

Financial Inclusion

Human Rights

Nature

Transparency & Accountability

Corruption

Gender Equality

Labor Rights

Taxes

Just Energy Transition

Gender Lens Finance

# ADVANCING SUSTAINABLE FINANCE IN ASIA

Data from January 2018 to December 2024

**264** New or improved financial policies at the national and regional level.

**68** Improvements by national governments in national regulations and/or their enforcement and other financial sector regulators, promoting the integration of ESG and human rights criteria.

**600** CSOs supported by regional partners and/or national coalitions that increasingly participate in or initiate influencing and advocacy efforts on promotion of a transparent and accountable financial sector.

**115,959** People taking action campaigning, demanding and/or engaging for a transparent and accountable financial sector that integrates ESG & HR criteria.
